

Max printing area 220x220 mm
placed inside dashed line

Max printing area 220x220 mm
placed inside dashed line

The diagram illustrates a page layout with a light blue rectangular area representing the maximum printing area. This area is enclosed within a dashed green line, which indicates the boundary for the printing area. The text 'Max printing area 220x220 mm placed inside dashed line' is centered within this area. The overall page is bounded by a solid green line, and there are additional geometric shapes and lines on the left and right sides, suggesting a complex layout or a specific page design.
